

Alternative Seating

When we return from Track Out, we will begin using alternative seating in our classroom. These are different types of seating that gives the children a choice as to where they work best. They will no longer have assigned seats. They will be able to choose a new place to work every day! I tried this for the first time last year with my class and it worked so well I'm going to try it again! I have a variety of seat choices already, but would love to have more choices for them to work with in the classroom. Here are a few options of what would work for us. If you have any of these at home that you no longer use, please consider donating them to our class! Or if you would like to donate new items, we would love that as well. Please let me know if you have any questions about if something would work or not.

Possible options:

Gaiam Kids Stay-N-Play-Ball (yoga ball) – I found these at Target. They are perfect for our classroom because of their size and their “legs” to keep them from rolling away. Any color will work!

Bean bag chairs (any color or style)

Children's size couch – any color or character style

Children's size camping chairs – any color. Some have characters on them, these are great too!

Beach chairs – any color, pattern, or character style

Children's size "saucer" chairs – any color or character style

Lap desks

These are just a few options. If you have other items, please let me know if you have any questions about if they will work for us!

Thank you in advance for making our classroom more learning friendly!
